

OPTIONAL DETERMINATION OF NON-SIGNIFICANCE (DNS) NOTICE MATERIALS

The attached materials are being sent to you pursuant to the requirements for the Optional DNS Process (WAC 197-11-355). A DNS on the attached proposal is likely. This may be the only opportunity to comment on environmental impacts of the proposal. Mitigation measures from standard codes will apply. Project review may require mitigation regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for this proposal may be obtained upon request.

File No. 20-114796-GJ

Project Name/Address: Maguire Tree Removals

Planner: Peter Rosen

Phone Number: 425-452-5210

Minimum Comment Period: November 19, 2020

Environmental Checklist reviewed by Peter Rosen (PR) 11/3/2020

SEPA Environmental Checklist

The City of Bellevue uses this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions

The checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully and to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions.

You may respond with "Not Applicable" or "Does Not Apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies and reports. Please make complete and accurate answers to these questions to the best of your ability in order to avoid delays. For assistance, see SEPA Checklist Guidance on the Washington State Department of Ecology website.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The city may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

	kground	•
	Name of proposed project, if applicable Maga	ure Removals
2.	Name of applicant Brad Case	
	Contact person _ Brad Case	Phone 253 - 850 - 767
4.	Contact person address 2602 64 MAV NE	TACOMA WA 98422
5.	Date this checklist was prepared $\frac{9/24/20}{}$	
6.	Agency requesting the checklist Bellevue Re	rmit Dept

7. Proposed timing or schedule (including phasing, if applicable)

OLT 2020 - NOV 2020

8. Do you have any plans for future additions, expansion or further activity related to or connected with this proposal? If yes, explain.

NO

9. List any environmental information you know about that has been prepared or will be prepared, that is directly related to this proposal.

Slope & Shoreline

10. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

no

11. List any government approvals or permits that will be needed for your proposal, if known.

City of Bellevue Vegatation management

Proposal requires a City Clearing & Grading Permit

12. Give a brief, complete description of your proposal, including the proposed us size of the project and site. There are several questions later in this checklist the describe certain aspects of your proposal. You do not need to repeat those an page. (Lead agencies may modify this form to include additional specific inform project description.)		
	Dead E Hazard free Removal	
	3. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and the section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.	
	500 W lake Sammanish PKWY NE	
	South border by garage and house	
Envi	ronmental Elements	
Earth		
1.	General description of the site:	
	□ Flat	
	□ Rolling	
	☐ Hilly	
29	Steep Slopes	
	☐ Mountainous	
	□ Other	
2.	What is the steepest slope on the site (approximate percent slope)?	
	Trees are located in steep slope critical area, over 40% slopes	

3. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

no Soil disturbance will occur

4. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

no

5. Describe the purpose, type, total area and approximate quantities and total affected area of any filling, excavation and grading proposed. Indicate the source of the fill.

N/A no filling or excavation

6. Could erosion occur as a result of clearing, construction or use? If so, generally describe.

NO

7. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? No Additional

8. Proposed measures to reduce or control erosion, or other impacts to the earth, if any.

N/A Very minimal Site disturbance

Erosion control regulated by BCC 23.76

Air

1. What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed? If any, generally describe and give approximate quantities if known.

Chamsons, trock and brush Chippen

2. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

no

3. Proposed measures to reduce or control emissions or other impacts to air, if any.

no

Water

- 1. Surface Water
 - a. Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Lake Sammamish 150' from Romoval Site

b. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

thee Removal 150 from loke Sammanigh

c. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of the fill material.

Done

d. Will the proposal require surface water withdrawals or diversions? Give a general description, purpose and approximate quantities, if known.

no

f.	Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.
	\\o
Gr	round Water
a.	AACH
	No
	Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.
	none

2.

3.	Water	Runoff	(including	stormwater)
----	-------	--------	------------	-------------

a.	Describe the source of runoff (including storm water) and method of collection and
	disposal, if any (include quantities, if known). Where will this water flow? Will this water
	flow into other waters? If so, describe.

No

b. Could waste materials enter ground or surface waters? If so, generally describe.

No

c. Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.

nδ

Indicate any proposed measures to reduce or control surface, ground and runoff water, and drainage pattern impacts, if any.

Project will comply with erosion and sediment controls per BCC 23.76

Plants

1	. Check the types of vegetation found on the site:
	deciduous tree: alder, maple, aspen, other
	evergreen tree: fir, cedar, pine, other
	☑ shrubs
	□ grass
	□ pasture
	☐ crop or grain
	orchards, vineyards or other permanent crops
	wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
	water plants: water lily eelgrass, milfoil, other
	other types of vegetation
2.	
	Dead trees
	isea trees
3.	List any threatened and endangered species known to be on or near the site.
	No
4.	Proposed landscaping, use of native plants or other measures to preserve or enhance
	vegetation on the site, if any.
	Replanting native trees

J.	English Try
Anim	als
1.	List any birds and other animals which have been observed on or near the site or are known to be on or near the site. Examples include:
	Birds: ☐ hawk, ☐ heron, ☐ eagle, ☐ songbirds, ☐ other
	Mammals: 🗖 deer, 🗖 bear, 🗖 elk, 🗖 beaver, 🗖 other
	Fish: ☐bass, ☐salmon, ☐trout, ☐herring, ☐shellfish, ☐other
2.	List any threatened and endangered species known to be on or near the site.
	Lake Sammamish - Puget Sound Chinook Salmon, Coho Salmon, Steelhead, Bull Trout, Bald Eagle
3.	Is the site part of a migration route? If so, explain.
	Western Washington is part of Pacific Flyway
4.	Proposed measures to preserve or enhance wildlife, if any.
	Replanting with native tree species

٥.	List any invasive animal species known to be on or near the site.
	NO
Energ	gy and Natural Resources
1.	What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the
	completed project's energy needs? Describe whether it will be used for heating,
	manufacturing, etc.
	None
2.	Would your project affect the potential use of solar energy by adjacent properties? If so,
	generally describe.
	N o
	ho
2	W/last live day of a second se
3,	What kinds of energy conservation features are included in the plans of this proposal? List
	other proposed measures to reduce or control energy impacts, if any.
	None

Environmental Health

1. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste, that could occur as a result of this proposal? If so, describe.

none

a. Describe any known or possible contamination at the site from present or past uses.

hone

b. Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

n one

c. Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project.

gassine, oil

d	Describe special emergency services that might be required.			
	N/A	- Mg. weer equired.		
e.	Proposed measures t	o reduce or control environmental health hazards, if any.		
	none			
No	oise			
a. What types of noise exist in the area which may affect your project (for example: traf equipment, operation, other)?			ic,	
	none			
b. What types and levels of noise would be created by or associated with the proshort-term or a long-term basis (for example: traffic, construction, operation, Indicate what hours noise would come from the site.		rm basis (for example: traffic, construction, operation, other)?	3	
	Chainsaw, tr	rek and brush Chippen		
c.	Proposed measures to	reduce or control noise impacts, if any.		
	none	Noise from construction activity is limited to the hours between		

Noise from construction activity is limited to the hours between 7 a.m. to 6 p.m. on weekdays and 9 a.m. to 6 p.m. on Saturdays and prohibited on Sundays and other legal holidays (BCC 9.18)

2.

Land and Shoreline Uses

1. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.

Single Family Homes

2. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?

no

a. Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? If so, how?

no

3. Describe any structures on the site.

Home, Garage

4.	Will any structures be demolished? If so, what?		
	no		
5.	What is the current zoning classification of the site? Sungle Samuly R-2.5		
6.	What is the current comprehensive plan designation of the site? SF-M Single-Family Medium		
7.	If applicable, what is the current shoreline master program designation of the site?		
	Shoreline Residential		
8.	Has any part of the site been classified as a critical area by the city or county? If so, specify.		
	4es, Sleep Slope & Shortine		
9.	Approximately how many people would reside or work in the completed project? N/A		
10.	Approximately how many people would the completed project displace?		
11.	Proposed measures to avoid or reduce displacement impacts, if any.		
	noul		
12.	Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.		
	All Permissions and Permits		
L			

13. Proposed measures to ensure the proposal is com	patible with nearby agricultural and
forest lands of long-term commercial significance,	

N/A

Housing

1. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

N/A

2. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

N/A

3. Proposed measures to reduce or control housing impacts, if any.

N/A

Aesthetics

1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

N/A

2. What views in the immediate vicinity would be altered or obstructed?

N/A

3.	Proposed measures to	reduce or control aesthetic impacts, i	if any
----	----------------------	--	--------

NA

Light and Glare

1. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None

2. Could light or glare from the finished project be a safety hazard or interfere with views?

NO

3. What existing off-site sources of light or glare may affect your proposal?

None

4. Proposed measures to reduce or control light and glare impacts, if any.

n/A

Recreation

1. What designated and informal recreational opportunities are in the immediate vicinity?

Private use Lake Front

2. Would the proposed project displace any existing recreational uses? If so, describe.

none

3. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.

NA

Historic and Cultural Preservation

1. Are there any buildings, structures or sites located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? If so, specifically describe.

no

2. Are there any landmarks, features or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.

Unknown

 Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc.

City Resources and G19

4. Proposed measures to avoid, minimize or compensate for loss, changes to and disturbance to resources. Please include plans for the above and any permits that may be required.

Replanting plan

If archaeological resources are uncovered during excavation, all work will immediately cease and the City, the Washington State Department of Archaeology and Historic Preservation, and affected Native American tribes shall immediately be notified.

Transportation

1. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any.

NA

2. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?

N/A

3. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?

N/A

4. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).

none

5.	Will the project or proposal use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.		
	no		
6.	How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?		
	n/A		
7.	Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.		
	No		
8.	Proposed measures to reduce or control transportation impacts, if any.		
	None		

Public Service

1.	Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe.
	No
2.	Proposed measures to reduce or control direct impacts on public services, if any.
	None
Utiliti	es
	Check the utilities currently available at the site:
	Electricity
	(- 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 -
	water
	refuse service
C	telephone
	sanitary sewer
	septic system
	□ other
2.	Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed.
	none

Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Non-project Action SEPA Checklist

Supplement to Environmental Checklist

These questions pertain to land use actions that do not involve building and construction projects, but rather pertain to policy changes, such as code amendments and rezone actions.

Because the questions are very general, it may be helpful to read them in conjunction with the Environmental Checklist. When answering these questions, be aware of the extent to which the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented.

Respond briefly and in general terms.

S	torage, or release of toxic or hazardous substances; or production of noise?
	None
r	ndicate proposed measures to avoid or reduce such increases.
	hone
+	ow would the proposal be likely to affect plants, animals, fish or marine life?
	none

	Indicate proposed measures to protect or conserve plants, animals, fish or marine life.				
	NA				
3.	How would the proposal be likely to deplete energy or natural resources?				
	N/A				
	Indicate proposed measures to protect or conserve energy and natural resources.				
	N/A				
	How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wildernes wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains or prime farmlands?				
	none				
Г	Indicate proposed measures to protect such resources or to avoid or reduce impacts.				
	none				
. I	low would the proposal be likely to affect land and shoreline use, including whether it would llow or encourage land or shoreline uses incompatible with existing plans?				
	none				
L					

Indicate proposed measures to avoid or reduce shoreline and land use impacts.

NA

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

N/A

Indicate proposed measures to reduce or respond to such demand(s).

N/A

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

NA
